Supreme Poultry Feeders with cover

with threaded bar for adjustment

The anti-waste feeder for specialists

Versatile and **reliable**, as required by people using hopper feeders, the supreme feeder is a perfect tool to feed your animals **simply** and **without waste**.

The particular adjustment system integrated to the **nylon bars** allows to have as much feed as you want in the tray. The adjustment is made by rotating the cylinder, and the innovative system by steps saves from accidental turning of the cylinder, preventing the animals from changing the set adjustment.

The **anti-waste fins** (whose design is registered) have been expressly designed to allow the animals to eat in a correct way, while preventing them from using their beak to spill the feed from the tray. Feed saving will be the immediate result, as well as a cleaner litter. Unwanted animals will not find feed on the ground anymore.

PRODUCT DETAILS

Anti-waste fins
Integrating parts of the plastic cylinder

Nylon rod
The threaded bar adjustment system allows as much feed as you want in the tray

Removable legs

- To be pushed into their sockets at the bottom of the tray
- Height 65mm

SUPREME POULTRY FEEDERS

- Tray, cylinder and lid in long-lasting, high quality plastic
- They allow to adjust the feed quantity in the tray
- Designed expressly to optimise the volumes when cylinders and trays are piled (storage and shipment)
- They can be lifted from the ground thanks to the special 65mm high legs. When used with the chicks, the feeder is placed directly on the ground, while the legs become extremely useful for older animals as they allow to keep the feed clean and ensure animals eat more properly and easily
- The hole at the top of the rod allows to hang the feeder
